Speaker: Denis Rottler — Mr. Rottler retired from L-3 Communications in Greenville, TX after 32 years of service. He was hired into the Flight Test Instrumentation group by E-Systems and retired as the manager of that group. This presentation, titled “Experimental Airplanes: What were you thinking?”, will be focused on what it takes to build a kit airplane in the Experimental Category, specifically a Van’s RV-9A. He will take a brief look at some of the differences between a Certificated Airplane and Experimental planes and some of the pros and cons of both categories of aircraft. *The aircraft will be on display (weather dependent).*

Thursday

OCTOBER 24, 2024 - 6:00 p.m.

Doors officially open at 5:45 p.m.
